OUR MISSION

The Charter Extended Day program provides safe, high quality and affordable childcare to students in grades TK-8, enrolled in and attending an El Dorado County public school. We cultivate the creative and intellectual promise of each child by offering enhanced educational opportunities in a structured setting *where fun and learning go hand-in-hand*.

OVERVIEW

The El Dorado County Office of Education launched the Charter Extended Day program in 1984, due to the working parents' need for quality childcare. Today the program serves more than 2,500 children annually, at 23 school campuses throughout El Dorado County.

In partnership with our districts, the Extended Day program provides childcare before, during, and after school. [Extended Day](#) allows students to transition from school to childcare, without transportation by the parent. Children participate in a variety of educational and enriching activities while in this safe, supervised environment.

We provide full day programs serving TK-Kindergarten at select schools, as well as

during school recesses and in the summer months, based on sufficient enrollment.
